For Starters....

We scour the Internet to bring you the latest and best free offers and free trials, but we don't stop there! Here at Netrazine we publish our guide in an easy to use PDF format so you can download it and browse to your heart's content. But that's not all...

Feel free to give this guide to anyone! You can give it to your friends and associates or even load a copy on your website and offer it to your visitors. (It's a great optin list builder.) Don't worry, every edition of the guide offers a free update link so even if you don't have the latest version, it's always just a click away. And just wait 'till you get inside.

Inside the Guide you'll find the cream of the crop of Free offers and free trials by reputable companies.

A note here...what you won't find is a lot of offers for software downloads. Frankly, most any reputable software company offers a free trial, so why clutter up your Giveaway Guide with software offers you can get anywhere? From time to time we do make an exception. For example:

Log-in and Fill-in With Ease

One program we recommend is RoboForm. This handy little free program keeps track of your log in data and also fills in most online forms for you. It will even tell you when it fills in sensitive info like your credit card.

It's password protected and safer than putting in this info manually because of keyword loggers. A keyword logger is software that records everything you type. The program sends your information to a hacker or keeps it on file so the thief can get your passwords and other sensitive information. Roboform stops this cold. The free version keeps 30 passwords for you while the paid version is unlimited. Since you'll be filling out a lot of forms to take advantage of these free offers, Roboform makes it easy.

[Download Roboform here](#)

But wait! Yes there is more :-). Why not subscribe to the Giveaway Guide Reporter so you get all the inside stuff as soon as it's published? Don't worry, we're not about to cram your inbox with "special offers" or anything like that. We always respect your privacy and won't share trade or sell your email address to anyone either.

One goal we do have is to develop a database of responsive subscribers like you so we can go directly to top companies and negotiate even better offers for you. There's power in numbers and with your help, we'll flex that muscle to squeeze out great deals for you. So why not subscribe now?

MailBox Mail Spam Free Email Free Trail

Keep Your Email Address – Get Rid of Spam

Seems like there's more spam today than ever before. If you're tired of spam than here's a solution: Mailbox Mail will scrub your email before it gets to your inbox. And you can keep your current email address.

Mailbox Mail provides "Challenge/Response Technology" so even people who aren't "white listed" or in your address book won't get dumped in your bulk mailbox. I like Mailbox

Mail's automatic white listing feature that's smart enough to know someone is replying to your email.

I've stopped doing business with people who employ protection schemes that "Challenges" my reply to someone. I mean come on!

Meanwhile spammers ignore challenges because their goal is to intrude upon as many people as possible while expending no effort or expense at all.

If Mailbox Mail sounds like a dream come true, why not give it a whirl? You get this great service free for your 1st 14 days.

Try NetFlix for Free

Don't pay another late fee – 55,000 titles to choose from

Okay first I've gotta blow off some steam here.

What's the worst thing about renting videos? If you said "late fees" I'm with ya! What's worse is I always seem to get tagged on movies I hate! What's with that? I'm not talking about "forgettable flicks" that are so bad you don't want to remember them. I mean movies I just plain felt were a waste of time to watch. And to add insult to injury I forget to take 'em back on time. Ouch! Well no more...

NetFlix is perfect for someone like me. I don't watch a lot of movies - there's simply not enough time. So it's great to have a couple ready and waiting for me. And when I'm done I just pop 'em into the mailbox and pick out some more. Nice. Netflix pays all the shipping too. But that's not all...

No matter what your viewing habits are, you can find a plan to fit your needs and save some big bucks. Let's face it, most of us spend way too much on this stuff. Not to mention the time and money it costs to head to video store or what the "while-your-at-its" cost. (You know, while I'm at it, I may as well stop at the grocery store and drop 50 bucks on snacks.) It adds up.

Why not check out NetFlicks for their free 14-day trial and see for yourself? You get a huge selection to choose from (55,000 titles and counting), it's convenient, and affordable - and you'll never pay a late charge at Netflix.

My Free Jewelry Offer

Great looking Sterling Silver Jewelry Free (almost)

This is the first of two sites offering "Free" Jewelry. Why the quotes?

Well with this jewelry offer, the jewelry is a whole 1 cent (yes a penny) each. And you can order two selections at a time. They do charge shipping - \$6.95 for the first item and \$4.00 each for additional items.

The jewelry itself is sterling silver so it's good quality stuff. While not technically free, it's still a good value.

It's certainly worth a look.

Try Everderm Dark Circle Eye Cream Free

Look years younger without those bags under your eyes.

Those bags (dark circles) under the eyes can make the most beautiful woman look haggard.

Everderm is so confident of their product they'll send you a 30 day sample free (you pay \$7.50 shipping - that's only fair in my book).

Like any high-quality cosmetic or beauty cream, Everderm's product isn't dirt-cheap. A 30-day supply costs \$49.95, but aren't those stunning results worth it? After all you'd pay that much for just one good dinner out.

[Click here to get your free 30-day supply of Everderm Dark Circle Cream](#)

Free Silver Jewelry Club Offer

Choose this free (plus shipping) Sterling Silver Jewelry for yourself or as a gift.

The Silver Jewelry Club also offers free sterling silver jewelry. You pay \$5.99 shipping.

Once again, they want build trust by making this free offer. The Internet is a tough universe. It's hard enough to trust the guy down the street, much less a jewelry retailer on the 'net soooo...

They offer some really nice looking pieces and only ask you to pay for shipping. Good deal, I think. I poked around and found out once you're on their mailing list - you'll be eligible for more free offers too.

I say if you're in the market for some nice jewelry (and who doesn't have a mother, wife, girlfriend or someone equally special in their lives), give 'em a shot.

Beauty 4 Free Sample and Drawing Offer

Get free cosmetic samples and enter to win monthly prizes

Can't say I tried this myself :-)) but I did check out the site. They offer free samples and a chance to win a prize every month. The free drawing looks like a decent offer all by itself.

When I looked the drawing was for a "Homedics Style Spa Deluxe Manicure Kit with Dryer"...

Now I see nail shops are popping up all over the place - even in Wal-Mart Kiosks. You can't tell me some people don't spend a whole lot more on nails than my \$1.98 nail clipper cost. I guess I'm saying it's worth visiting the site even it's just to enter the drawing.

As for the samples...

Well I'm just not the best judge of that. However my experience with my wife reveals this beauty stuff can get pretty expensive - especially if you buy good quality. And who wants to use junk?

My guess is most of you will try a few free samples and find one or two products that really suit your needs. All in all, it never hurts to try.

Try GameBlast by Shockwave Free

Play cutting age games on the Internet for loads of fun

If you've done anything fun on the Internet you've probably used Shockwave. They got some incredible stuff. Now they've introduced GameBlast - their premier subscription game site.

With over 200 games to play you could spend a LOT of time there. Best of all it's not just for kids either. They've got some really decent grown-up titles too. (I don't want to say "adult" because you might take it the wrong way :-)

You can even play multi-player games and play in tournaments. Plus, if you really like one of their games, you can buy it and play it offline.

Get 2 Free Universal Studio Florida Tickets from eTravel Florida

Enjoy free admission to one of Florida's hottest attractions

If you haven't guessed, eTravel Florida wants to sell you a Florida vacation package. Their deals aren't bad either. But we are dedicated to offering only FREE deals so here it is.

Granted they will call you with a package offer and you are free to accept or reject that offer.

Orlando is one of the best family destinations around. You'll have loads of fun but it can be pricey. Don't you owe it to yourself to save a few dollars when you can? I think so.

Try RapidFax Internet Fax Free

Free up your phone line while getting better quality faxes

Even if you own a fax machine, an Internet fax service can be indispensable. Why?

Well for one thing...

It saves money. The trouble with fax machines is they print everything that's sent to them. Internet faxes let you preview the fax and print if and what you print. No more printing fax spam or other useless fax messages. Plus you don't tie up another phone line. But that's not all...

Most computer printers produce much better quality than fax machines. Not only can you read more faxes but it solves the problem of whose machine is producing a bad fax.

But don't take my word for it. Try RapidFax yourself free for 30 days and see for yourself. You'll wonder how you ever got along without it.

Boost Your Cell Phone For Free (plus shipping)

Get a good signal almost anywhere

As seen on TV. Get rid of dropped calls, bad connections and fuzzy voices all for free...well almost. You pay just \$5.99 shipping for this product which retails for \$19.99.

I can't say how well it works but many bought them from the TV ad.

Get a Free Screensaver from Freeze.com

Dress up your computer with these attractive and fun screensavers

We don't usually offer software but these screensavers are beautiful! Here's the deal: Freeze.com wants you to become a premium member so they're willing to give you some sample screensavers. Nice ones too.

Choose from Live Dolphins, Waterfalls (my favorite), Aquarium2 and more. These are impressive screensavers you'll enjoy and want to pass on to your friends (of course the easiest way to do this is to give them a copy of the Giveaway Guide :-). Take a look and see for yourself.
